

*We suggest that two people put unit together.

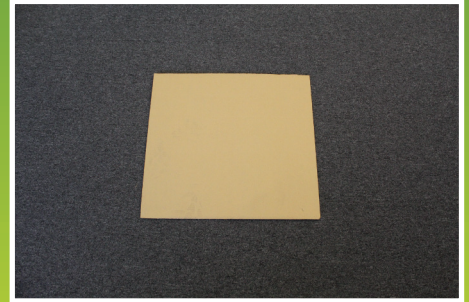

STEP 1: Open box. There will be three pieces: main unit, slotted bottom base and cardboard square floor.

Main Unit - (1)

Slotted Bottom Base - (2)

Cardboard Square Floor - (3)

STEP 2: Insert cardboard square floor (3) into bottom of unit from inside and tape around all sides to keep in place. Next flip unit over and tape square floor to the outer flaps.

STEP 3: Insert slotted bottom base (2) into unit with flaps facing towards the ground.

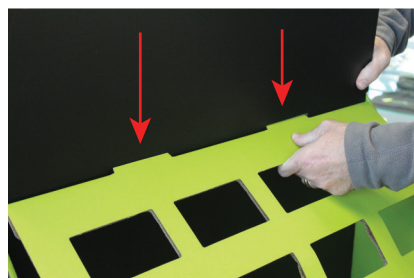

STEP 4: Stand up unit (1). Use 2 people to lift front flap and start next step.

STEP 5: Pull up green outer front of display and insert tabs on both sides into slots on unit.

STEP 6: Position header to fit in slots securely at top of green front panel.

STEP 7: Once finished, place Magnilumen Plus boxes inside slots of POP display.
